ABS Solar
Energy Solution

Introduction

What is Solar Energy?

ABS Solar Energy is a trusted name in renewable energy solutions, offering complete solar services — from consultation to installation and maintenance. Our goal is to make clean, affordable, and efficient solar energy accessible to every home and business. We provide high-quality solar panels, expert installation, government subsidy guidance, and easy loan & EMI options.

ABS Solar
Energy Solution

Why Choose ABS Solar ?

Complete Solar Solutions

From site survey to installation and maintenance, we handle everything for a hassle-free experience.

Government Subsidy Support

We assist in availing all available subsidies and financial benefits for maximum savings.

Easy Loan & EMI Facility

Flexible finance options to make solar energy affordable for everyone.

Trusted Quality & Service

We use high-efficiency panels and provide professional installation with long-term reliability.

@abssolar_

ABS Solar
Energy Solution

Government Subsidy Benefits

The government offers up to 40% subsidy on solar panel installations to make clean energy more affordable. The subsidy amount is directly transferred to your bank account under the DBT scheme, ensuring transparency and easy access for all users.

01 **Up to 40% Subsidy on Solar Installation**

The government offers financial support on residential solar systems, reducing your total setup cost.

02 **Direct Benefit Transfer (DBT) System**

The subsidy amount is directly credited to your bank account after installation and verification.

03 **Support for Green Energy Adoption**

These subsidies encourage families and businesses to switch to renewable energy and save on monthly electricity bills.

ABS Solar
Energy Solution

Our Services:

We provide complete solar solutions including site survey, system design, installation, maintenance, and subsidy assistance. From start to finish, ABS Solar Energy ensures reliable, efficient, and affordable solar power for every customer.

Solar Panel Installation

High-quality panels with expert installation for maximum energy output

System Maintenance

Regular check-ups and support to ensure long-lasting performance

Subsidy & Loan Assistance

Complete guidance for government subsidy, loan, and EMI process

Energy Consultation

Professional guidance to help you choose the best solar solution as per your energy needs and budget.

Please Note:

- Prices are inclusive of all taxes
- Price are STD size costing
- Make of panel is ADANI/UTL/Loom/Waaree in Baifacial & Topcon
- Make of invertor is DEYE/UTL/K-Solar/Microtek
- All Inverters are single phase hybrid only 10kw is three phase

Thank You!
